應用英語學系碩士班

英語教學試題(第四節)

(第 / 頁共 / 頁) (限用答案本作答)

可使用計算機 不可使用計算機

- I. Definition: Define each of the following terms in 1-2 sentences. (30%)
1. Grammar translation
 2. Audiolingual methods
 3. Intrinsic motivation
 4. Meta-cognitive strategies
 5. Suggestopedia
- II. Essay Questions: **Choose 4 essay questions** and respond to each of them in 2-4 paragraphs. (70%)
1. Relate Stephen Krashen's five hypotheses to English teaching/learning, and state their implications in classroom teaching.
 2. Suppose you have a class of 40 students, and their English proficiency is of two extreme levels, i.e., some with very good English ability, many very poor. Design a lesson with the teaching steps to help you reach your objectives.
 3. What is a communicative approach? State the theory supporting its use, the way it can be applied in a general English classroom, and the drawbacks it may have when it is used in the classroom in Taiwan. (Please state your ideas with evidence from theory and your experience.)
 4. If you have a class of students who have learned English for at least 4 years but are generally not interested in English, how are you going to motivate them? (Please state your ideas with evidence from theory and your experience.)
 5. Students often make errors in speaking and in writing. In a language classroom, how will you deal with students' errors made in speaking? How do you see errors in the process of learning a language?
